Introducing the

Bubble-Up® Interactive™

Made interactive for your greater safety.

Water Radon Removal

Water Alarm Sensor

Bubble-Up® Interactive™

Bubble-Up® Jr. Interactive™

Building on the advantages of compact size, 99% efficiency, quiet operation, high pressure, and clean, neat installation, R.E. Prescott Company has added safety features with the REPCO Meter Control and the REPCO Water Alarm Valve.

For routine service, the Bubble-Up® Interactive™ Meter Control automatically reminds you when to perform routine maintenance. The Meter Control is the key to safe performance.

Then, when faced with safety issues like radon vent obstruction, high water and even leaks, the Bubble-Up® Interactive™ Water Safety Valve automatically shuts down and sounds an alarm even when the power is out!

The Bubble-Up® Interactive™ lets you know what is going on.

- Pressure gauge
- Flow direction arrows
- Digital flow meter (pictured)
- Status lights when to change battery
- Optional blower alarm add-on available

- Triple safety water alarm valve (pictured)
 1. Overflow water stop
 2. Leak water stop (top and floor sensor)
 3. Plugged vent water stop

 1. Battery back up
 2. Float backup
 3. Solenoid backed up with motorized ball valve!
- Dimensions
 - ›Bubble-Up Interactive
Depth: 30" Width: 25" Tank Height: 41" Overall Height: 60"
 - ›Bubble-Up Junior Interactive
Depth: 18" Width: 24" Tank Height: 41" Overall Height: 60"

Your water is aerated and blown into the inside cup. Radon is bubbled up and out. Your clean water overflows the brim of the cup, and a built-in pump automatically delivers it to your home.

Water Alarm Valve

Digital Flow Meter

Bubble-Up® Interactive™ Simple Installation

Pipe in & Out

- 2- 1" NPT Water Connection
- 1- 2" PVC air out connection
- 1- 1.25" NPT overflow

Plug In

- 1- 20 AMP 115V quadplex receptacle
